

DUST REMOVAL MACHINES

Flap 3000 – 10ft

Carpet & Rug Dust Removal Machine

OVERVIEW

Industrial dust removal machine that clears dust, dirt and loose particles from rugs before washing — ideal for larger rugs and higher volumes.

CE Compliant

Industrial Quality

Energy Efficient

Flap 3000 – 10ft

Dust Removal Machines

KEY FEATURES

- 3,000 mm / 9.8 ft working width
- Industrial rug dusting system
- Heavy-duty construction
- Efficient dust and dirt removal
- Continuous operation capable
- High-volume rug processing

APPLICATIONS

- Professional rug-cleaning facilities
- Industrial carpet-processing plants

BENEFITS

- Removes dust before washing
- Improves pre-wash preparation
- Less dirt in washing system
- Better overall cleaning efficiency
- Reduces manual dusting work
- Supports high-volume production

TECHNICAL SPECIFICATIONS

Machine Type	Carpet & Rug Dust Removal
Model	Flap 3000
Working Width	3,000 mm / 9.8 ft
Operation	Industrial
Application	Dust Removal
Construction	Heavy-Duty Industrial
Processing	High-Volume
Materials	Industrial-grade components
