

CARPET CENTRIFUGE MACHINES

Spin 2700

Industrial Carpet & Rug Water Extraction

OVERVIEW

High-speed centrifuge that removes excess water after washing. Extended stainless-steel drum, pneumatic cover and speed control for safe, consistent operation.

CE Compliant

Industrial Quality

Energy Efficient

Spin 2700

Carpet Centrifuge Machines

KEY FEATURES

- 2,700 mm extended inner drum
- Up to 1,200 RPM spinning speed
- 5.5 kW industrial motor
- Stainless-steel inner drum
- Pneumatic cover locking
- CE-certified construction

APPLICATIONS

- Professional rug cleaning facilities
- High-volume washing operations

BENEFITS

- Efficient water extraction
- Less moisture into drying
- Higher daily volumes
- Handles larger carpets
- Reduces drying time
- Corrosion-resistant build

- Commercial carpet cleaning
- Carpet processing plants

TECHNICAL SPECIFICATIONS

Inner Drum Length	2,700 mm
Inner Drum Diameter	380 mm
Spinning Speed	1,200 RPM
Motor Power	5.5 kW / ~7.4 HP
Daily Capacity	Up to 1,250 m ²
Weight	510 kg / 1,124 lbs
Voltage	380 V / 3-Phase / 50-60 Hz
Certification	CE Certified
