

CARPET DRYING SYSTEMS

Carpet Rug Dehumidifier

Industrial Moisture Removal & Drying

OVERVIEW

Industrial dehumidifier that removes moisture from the air and accelerates carpet drying after washing and water extraction.

CE Compliant

Industrial Quality

Energy Efficient

Carpet Rug Dehumidifier

Carpet Drying Systems

KEY FEATURES

- Industrial dehumidification
- 6 HP scroll compressor
- 5.5 kW electrical power
- 4.5 kW heating output
- ~800 L / 24h moisture removal
- Portable caster-wheel design

APPLICATIONS

- Professional carpet cleaning facilities
- Commercial drying rooms

BENEFITS

- Accelerates carpet drying
- Removes excess room moisture
- Reduces drying time
- Helps reduce odor and mildew
- Controlled drying environment
- Supports higher daily output

- Rug cleaning businesses
- Carpet restoration facilities

TECHNICAL SPECIFICATIONS

Electrical Power	5.5 kW / 7.4 HP
Compressor	6 HP Scroll
Heating Output	4.5 kW
Moisture Removal	~800 L / 24 hours
Refrigerant	R-407C
Room Size	Approx. 430 sq. ft.
Design	Portable with casters
Materials	Industrial-grade housing
