

CARPET DRYING SYSTEMS

# Drying Rack Hanging System

Pulley Controlled Industrial Drying

## OVERVIEW

Industrial drying rack with 12 poles and pulley system to maximize drying capacity — multiple rugs dried efficiently at once.

CE Compliant

Industrial Quality

Energy Efficient

## Drying Rack Hanging System

Carpet Drying Systems

### KEY FEATURES

- Heavy-duty painted-iron frame
- 12 high-capacity drying poles
- Each pole 14.75 ft wide
- Pulley-controlled lifting
- Free-standing construction
- Low-maintenance design

### APPLICATIONS

- Professional carpet cleaning facilities
- Commercial rug operations

### BENEFITS

- Maximizes drying space
- Multiple rugs at once
- Reduces manual handling
- Improves drying workflow
- High-volume processing
- Organized drying area

- Rug cleaning businesses
- Industrial processing plants
